

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: February 1, 2016

SUBJECT: February Board Report

Buildings and Grounds: The heating system is working well. I see better control and more heat in areas of the building that were very poor last year. A few roof leaks have appeared with the warmer weather.

Transportation and Vehicles: The school pickup truck has a bad engine with a price tag of \$6,000 to repair. Winter transportation has been non-operational with the ferry running.

Safety and Crisis Management: Fire alarm system will have the new panel installed this month.

Planning and Projecting: Still planning with DSGW about Recreation Center.

Staffing and Personnel: Nothing to report
