

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: April 18, 2016

SUBJECT: April Board Report

Buildings and Grounds: Door #8 needs to be replaced. It is rusted beyond repair. I will have Jamar come and inspect each roof as to give an updated report on conditions, and also repair multiple leaks. This summer we will replace many restroom faucets and flushers along with a new sink in the high school girl's restroom.

Transportation and Vehicles: The new International full-size bus is here and the new mini bus will arrive in June. We will need to put the 2000 Bus #2 up for bids as soon as possible before something else happens to it.

Safety and Crisis Management: The tornado drill went well last week. The new fire panel is working well and I have switched the fire alarm monitoring to Northland Fire Safety. We are also working on our Emergency7 Response Plan, getting MOU's and conforming the plan to include recovery.

Planning and Projecting: Summer work to include remodeling three elementary classrooms and reconfiguring the band practice rooms for more visual surveillance of students in these rooms. This will include new glass doors and more windows.

Staffing and Personnel: Summer staffing is full, including two past graduates who are attending college and two high school students.
