

Athletic Director Report

April 15, 2013

Spring sports are on their way but unfortunately have been struck by poor weather. The teams have been practicing for over a month but haven't played any games yet. Hopefully, the games will start the week of April 22-26.

The **Fall/Winter Sports Awards Night** will be held on Wednesday, April 24, to honor approximately 70 student athletes who have participated in a sport(s). The awards will be handed out in the school cafeteria with the start time at 6pm.

Coaching evaluations have been completed for our Head Coaches for the fall and winter sport teams. Each coach was provided an opportunity to give feedback and suggestions regarding their evaluation and was asked to provide comments that they believed would assist their team for the next season. I thought this process went well for both the coaches and myself.

Spring sports teams schedules are currently being revised and updated as a result of poor weather conditions. As we complete the updates we will post the schedules on our website and provide new schedules throughout the community.

Sincerely submitted,

Jeff Gordon
Athletic Director
