

## Athletic Directors Report

December 3, 2013

By: Jeff Gordon, Athletic Director

Winter sports season has approached us with coaches and student athletes ready to perform in their perspective sports. The winter sports teams are the following: middle school volleyball, high school girls and boy's basketball, boys wrestling, and boys and girls skiing. We did post for the high school cheerleading but know one applied for the position.

New score boards were ordered and have been placed on the gym wall. The boards have been working fine without any difficulties or showing the wrong scores. We want to take this time to thank the School Board for providing the funding for the score boards.

New winter sports pocket calendars are available in the school office or through out some designated businesses. We have had some scheduling additions to the sports teams with adding more basketball games, wrestling meets and a full ski team schedule.

Concessions are ongoing for event games. We encourage community members to come to watch the games and check out the concessions sponsored by our high school students.

The elementary 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> grade basketball program is currently being worked on. We have had volunteers in the community come forward and offer their services to help with the program. Updates will be ongoing with the anticipating start times to be sometime in late December early January. The sessions are usually on Saturday mornings and last for approximately six weeks.
