

School District of Bayfield

Board Report

Sandra J. Raspotnik

Director of Special Education/Pupil Services

September 3, 2014

We will be starting out the school year with 102 students with special needs. There are six (6) students with a 504 plan.

On August 29, 2014, Doug Jardine provided training Crisis Prevention Intervention (CPI). We had 28 staff members attend the training. We will be changing our Response Plan to include those people who are now certified.

This is going to be an exciting year with lots of changes. I look forward to our students moving forward in their academic progress.
