

# Rec Center Report for November 2010

submitted by Scott Armstrong on Dec. 10, 2010

## **Facility Update:**

Bayfield High School students are currently using the Rec Center for swimming lessons, after completing a 4 week unit in November using the fitness room and racquetball court. Marilu Belanger and I discussed a goal to have 95% of all graduating Bayfield students be capable of swimming 25 yards and surviving for 20 minutes in deep water.

We are working with Steve Dunn to plan some large capital improvement projects in the future. We are told by the painters that the north end of the pool has rotten sheathing similar to what was fixed on the south side last summer. The roof had shingles blown off during a recent vigorous storm – a reminder to look at addressing that issue. Jamar has donated 2 mildly-used furnaces that are now sitting in our back room. Installing them while taking out the old propane back-up furnace would greatly prolong the life of our current heating system.

The skateboard area was a big hit this fall, used frequently until the weather got too cold.

## **Programs update:** The following were offered in September and October:

Aqua Fit	Bayfield School Swim Lessons
Mah Jong	Bayfield TAP program
Northern Lights physical therapy sessions	Bayfield High School PE classes
Birthday Parties	Bayfield School special class swims
Swim Team	Indoor Biking
SilverSneakers	Red Cross Swim Lessons
Sea Scouts	Yoga
Martial Arts	Spanish for Travelers
