

Rec Center Report for Sept and Oct 2010

submitted by Scott Armstrong on Nov. 2, 2010

Facility Update:

Fall is in full swing here at the Rec Center, with use, programs and membership increasing. Over 100 people will use the Rec Center on a typical weekday. The school is here with swim lessons for elementary school classes, fitness and racquetball for high school PE classes and the after-school TAP program. Our lounge and wireless made a perfect place for teachers to work with Jim Lee on testing evaluations.

We closed for 4 days over Applefest to do some work, including some retiling and grouting and rug cleaning. The big project was sandblasting and repainting of the shower walls. We hope that by getting down to the bare wall and using a highly resistant industrial paint, we will eliminate the constant peeling problems of past years. We have also done some work upgrading the rusting electrical systems in the pool/whirlpool control rooms, and bought a new pump for the bubbles in the whirlpool.

The skateboard area was officially dedicated in September and has been a big success. Dave Doering has written a grant to the BEF to help fund a tech ed project to build a sauna for the Rec Center. We have obtained donations of cedar and a stove, thus reducing the cost of the project to approximately \$3500. We hope to split this cost among RFR, the Friends, BEF and other donors to get the project going this spring.

Programs update: The following were offered in September and October:

Aqua Fit	Bayfield School Swim Lessons
Mah Jong	Bayfield TAP program - skateboarding
Northern Lights physical therapy sessions	Bayfield High School PE classes
Birthday Parties	Bayfield School teacher inservices
