

Student Council Report

April 10, 2013

- May 10, 2013 has been scheduled as a high school service day. This day will include tasks that work to preserve our community. Some of these tasks include: roadside garbage cleanup, trail maintenance, and other services provided by high school students to local businesses/organizations. We are currently in the process of making arrangements.
- The Easter egg hunt in the high school was a success. We received lots of positive feedback from students.
