

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: September 3, 2014

SUBJECT: September Board Report

Buildings and Grounds: The sandstone school sign has been replaced/repared thanks to Meierotto Masonry. The new cafeteria tables are here and students and staff love them. All the monitors have been mounted throughout the building. They will have information and pictures of what's going on at school. They should be operational soon as computer wire and hook-ups are done. New drinking fountains have been installed in various locations with the option to fill water bottles.

Transportation and Vehicles: I am sorry to say that we have many issues with our aging bus fleet. The other school vehicles are doing fine with some new tires and minor repairs.

Safety and Crisis Management: During the staff in-service, staff operated evacuation chairs and put out a fire with a fire extinguisher. Also, the school drills and evacuation was discussed. We will be training the staff on an enhanced strategy of lockdown for our school in the next in-service.

Planning and Projecting: Bleachers will be here mid-September. DSGW has finished the inspection/study of the LaPointe School.

Staffing and Personnel: The summer custodians and help did a great job.
