

Athletic Director Report
December 5, 2012

The Winter Sports is among us with four team sports participating December through February. Various games and practices are taken place with students and coaches.

We have been very pleased and excited with the large numbers of turnout for each team. The boys and girls basketball teams are averaging 20 students per team, wrestling has between 5-8 wrestlers, and middle school volleyball with an additional 15 – 20 players. (starts in January)

The Cooperative Ski Team has 5-8 students who have joined the team in Washburn. The students have been practicing at the Rec Center and will be joining the team in Washburn for practices every other day prior to the ski hill opening.

Game Concessions: We have to give a thank you for our school advisors and students who have been providing concessions at the game events. Each class has participated with the fundraising and to my knowledge, have been making good profits for their future planned activities.

Team schedules and updates will be placed on the school website calendar. We will provide as much information as we can for our community and school staff/students.

Sincerely submitted,

Jeff Gordon
Athletic Director
