

SCHOOL DISTRICT of BAYFIELD

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: August 1, 2015

SUBJECT: August Board Report

Building and Grounds: Summer improvements are in full swing. The floor at the High School locker bay is in demo mode. The gym floor has a new finish and the playground fence on the east side is new. Everything is close to being on schedule as of now.

Transportation and Vehicles: The District has a new 8 passenger van, to make up for losing the Express van to the Island School next year. Viking has the flat nose bus and bus route. The truck had the brakes fixed two weeks ago. All other vehicles are in good shape.

Safety and Crisis Management: Advantage Company was here to do the annual fire detection inspection. There was a railing up at the baseball field that broke when someone was leaning on it two weeks ago. The property belongs to the city, but we cut grass and keep up the field and restrooms. We did repair the railings that were bad and any boards that posed a safety issue.

Planning and Projecting: There is a crew at the LaPointe School who are painting and doing extra projects.

Staffing and Personnel: We have a great crew and hope to have everything go smooth and stay on schedule.
