

Jeff Gordon  
Dean of Students  
School District of Bayfield  
Report to the Board  
October, 2013

September: S3 Grant, developed job descriptions for the PBIS coaches and coordinator positions. The individuals hired for the supplemental positions are Janine Johanik, Mark O'Neill and Melissa Giesregen.

PBIS Committee Meetings: The PBIS school wide team held two meetings reviewing data and information regarding student referrals and the action plan from the previous year.

New PBIS Coaches and PBIS Coordinator trainings: We are working with the new coaches to find additional trainings or seminars that they could attend to review and learn more about the coaching and coordinator positions.

Introduction to the 4<sup>th</sup> and 5<sup>th</sup> grades: I have had meetings to discuss the Dean of Students role with the students in both grades. We talked about bullying and having positive behaviors in the school. The students were very responsive and shared ideas with me to build on our current school programs.

Middle School and High School first week orientation with administration: Mr. Stralka and I met with grades 6-12 in the beginning of the school year to review and discuss the student handbook and school expectations. The students were very responsive and gained an understanding of what the staff and administration expected of them.

Note: PBIS monthly data for September will be provided to the School Board prior to the meeting on Monday, October 28, 2013. We are currently placing data in the system and should have Septembers referrals completed soon. I will keep you posted.

Sincerely Submitted,

Jeff Gordon
