

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: March 3, 2010

SUBJECT: March Monthly Report

Buildings and Grounds: I have never seen so much trash around the outside of the school building, especially the parking lot and the road up to the ball field. This morning I counted 32 milk and juice containers and a few smoke packs. I really think we need someone roaming around out there in the morning and at high school lunch.

Transportation and Vehicles: Bus #3 went up to Duluth Cummins Diesel shop to replace the turbo speed sensor and reset and adjust the ECM. The mini bus and the Montana van received new wiper motors. Bus #2 will go in to have the brakes replaced this week.

The ice road is open now and winter transportation is driving the students up to school in the morning, but not picking up the lunch. Arnie said he does not have enough time so we will have to add another trip between 9:30 and 11:00 a.m.

Safety and Crisis Management: The emergency lights around the building will be receiving new batteries this spring, along with the fire alarm units.

Planning and Projecting: Jamar Builders is working up a plan to renovate the gym air handling units, install solar hot water heat on the roof and repair the Tech Ed roof. All these projects are scheduled to be completed by July 1, 2010.

Staffing and Personnel: Birdie Pallas, the cook/custodian at the LaPointe Elementary School has resigned her position as cook effective March 1. We are in need of a food preparation person on the island.
