

Rec Center Report, January 3, 2017  
submitted by Scott Armstrong

**Facility Update:**

Many of fall programs ended in November, and we have been preparing for a new slate of classes to start the new year. Swim team and Aspire martial arts continued with strong participation. The high school finished up 7 weeks here with their swimming unit. TAP and elementary school swimming continue.

The project to replace the pool grates over the gutter has been completed. A crew of dedicated volunteers scrubbed 30 years of built up scum and sand out of the gutters before we screwed down the new grates. They should last decades and eliminate the recent injuries where patrons broke through the old grates. We also did a deep cleaning of the fitness room.

We also remodeled the office areas to provide more space and security. We added a doorway between the lifeguard room and the receptionist desk. This allows us to block direct access between the hallway and the receptionist area but still provide customer service through the open top half of the original door. We also cleared out space in the lifeguard room to create 3 desks for our 3 directors.

Other plans for needed capital improvements are:  
-replace leaky heat exchanger for hot tub with new electronic controls  
-new electronic control unit for pool air handling unit  
-replace broken dampers for pool air handling unit

**Programs update:** The following were offered in December:

Aqua Fit	Mah Jong
