

Scott Stralka
Principal K-12
School District of Bayfield
Report to the Board
April, 2015

April 10, 11: I attended the WIEA convention with a team in Milwaukee, WI. This was a wonderful event to attend. I attended the following sessions: *Using Educational Data as a tool, Building Culturally Responsive Collections of Texts For Elementary Social Studies, You are what you are; Incorporating Anishinaabe Identity and Modern Work, We are Healers; Using Digital Mentoring in Education as a Tool for Self Determination and Digital Story Telling as the Voice of the Next Generation.*

April 14: I attended and participated during the MOU Meeting at Legendary Waters. I am thankful for the opportunity to participate and provide data when needed.

April 24: I will be attending the Title VII hearing at the ECC Health Fair. I will share the Title VII funds for 15/16 school year and a description of the services.

April 24: Staff will have time to work on their Educator Effectiveness / MyLearningPlan objectives. Staff will also gather in the gym at 3:15 to observe one of our staff members being honored with a song as part of the Pow Wow.

Curriculum: I will continue to work with our staff on updating curriculum work aligned to the state standards. Next year's focus will be developing Outcomes and Benchmarks for Science following a similar process for the Math and ELA curriculum that was developed and completed.
