

Scott Stralka
Principal K-12
School District of Bayfield
Report to the Board
February, 2014

January 8th: I attended the RTI Coaches training with Angela Botka and Stacy Peterson in Trego, WI. This training provides us the opportunity to learn and practice strategies for leading and coaching teams and individuals for change in the RTI Framework.

January 22nd: RTI Committee meeting was held in the LRC. I provided a copy of our updated RTI staff manual to our committee for final review. This will be distributed to our staff during the February staff meetings.

January 24th: End of the second quarter and Semester I. This was an early release day for our staff and students. Staff completed their report cards. On this day, I participated with the middle school staff playing in the Middle School All Star Basketball Game against the students. We all had a great time.

January 24th: Held our second Parent Advisory Committee (PAC) meeting. Barb Gadbois and I shared information with our parents on upcoming opportunities while exploring ideas and recommendations for our committee for future family engagement events.

January 31th: This marks the conclusion of our Winter Universal Screening window for our students completing the STAR testing. This will give our staff an opportunity to measure student achievement comparing the fall and winter benchmark scores in reading and math.

February 4-5: Our Middle School students will have the opportunity to explore the Ice Caves. This is a great opportunity for our student to explore such a unique area.

February 3-8: High School Homecoming Week: High School students will work diligently on their class projects / decorations for Homecoming.
