

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: March 7, 2012

SUBJECT: March Board Report

Buildings and Grounds: MEI (McNeil Environmental Inc) performed a mock OSHA inspection of the District last week. I am happy to report only a few minor violations.

Transportation and Vehicles: Bus #2 received new batteries as the battery box has been repaired. Also, the seat frames have been repaired. Bus #2 is now in Duluth with a wiring harness problem. It had to be towed up last week.

Safety and Crisis Management: I attended the WISSCA Safe School Conference last week where the topic was implementing a full working crisis/recovery plan.

Planning and Projecting: Planning on getting the soccer field back in shape this year. There will be some equipment we will need so I will keep you informed.

Staffing and Personnel: Nothing to report.
