

Rec Center Report, November 5, 2013

submitted by Scott Armstrong

Facility Update:

The Rec Center has exploded with use recently. Yesterday we had 201 visits with normal Monday programming. I have never seen that many visits without a special event. Today, the school is using the Rec Center 4 different times – 4th grade swim lessons, high school PE in the fitness room, TAP swimming and Tom Steckling's students who visit sometimes to use the fitness room equipment.

The new fitness room equipment continues to be a big hit and probably partially responsible for the increased use described above. All customer feedback has been positive.

We are looking at some capital improvement projects in the new few months – some new piping, venting and pumps in the furnace room to address leaks, and a new controller for the hot tub.
