

# Rec Center Report, January 4, 2012

submitted by Scott Armstrong

## **Facility Update:**

The Rec Center was used hard during school vacation week, with 100+ people visitors daily.. The high school and TAP program finished up with their swimming in December. At one point, we had 10 school groups using the pool during a week.

Alan Waite will be working to install vapor barrier on the interior walls of the pool gable ends. He will put up vapor barrier, then cover it with a fabric and lattice similar to the existing look. The hot tub has been closed for most of the month due to a leak. It has been hard to find where it is leaking, approximately 300 gallons a day. We thought we found the problem and fixed some cracked cement and tiling, but the leak still persists. We are now using an ink dye, a camera and looking into a consultant to find it. Given how long this process has taken, we will look at refilling and using the hot tub, despite the leak, and scheduling a repair in the spring.

We have raise enough money to order and install a saline chlorinator on the pool. Note that by state law, we must keep the existing hypochlorite feeder in operation, so the saline unit will be an addition to our system, not a replacement.

We are eagerly awaiting the completion of the sauna by the school tech ed class.

The Friends are offering the polar bear plunge on March 3 as an opportunity for outside groups to raise money for their organizations. Groups can do the plunge and we will split their funds raised 50-50. Both the Electrathon and TAP Outdoor Club have done this in the past.

## **Programs update:** The following were offered in December:

Aqua Fit	Mah Jong
Northern Lights physical therapy sessions	Birthday Parties
SilverSneakers	Women's Fitness Training
Martial Arts	Little Kickers
