

SCHOOL DISTRICT of BAYFIELD

TO: Superintendent and Board of Education
FROM: Steve Dunn
DATE: June 28, 2017
SUBJECT: July Board Report

Buildings and Grounds: Many projects are underway now. New fence behind school, playground leveling and a few new playground items, door entry system and remodel of main office. Also, new flooring and cabinetry in many classrooms along with 400 new LED light panels for dropped ceiling fixtures. Outdoor classroom with roof is also underway. Island school exterior will be painted next month.

Transportation and Vehicles: All vehicles will be serviced next month when no summer school or trips will have them busy.

Safety and Crisis Management: Fire alarm system will receive annual inspection in July

Planning and Projecting: Planning to start the concession room in August. The main office door #2 will be the only door where visitors or students may enter or exit during the school day. The high school secretary will be relocating down there to greet folks and let them in as we have moved the doors there to allow secure entry. The middle school Principal will be relocated into the middle school hall and that office will receive two windows and a large glass door (Anne Sullivan's old office).

Staffing and Personnel: Looking forward to getting someone started in the full-time spot on the island.
