

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: February 9, 2011

SUBJECT: February Board Report

Buildings and Grounds: The snow on the Tech. Ed. building roof has been removed and the few roof leaks repaired. Also, the furnace for that classroom will receive a new blower assembly.

Transportation and Vehicles: The express van is receiving a new fuel pump today. Other than that, all the passenger vehicles are doing o.k. Bus #3 had a master cylinder problem that locked up the rear brakes a few weeks ago but it is back in service now.

Safety and Crisis Management: On the last week of January, we ran some safety drills throughout the district. One drill was performed each day including shelter in place, lockdown, evacuation, fire drill, and a security drill around the district in different locations. All is a work in progress but they went smoothly.

Planning and Projecting: We have two bids out for repair on the Recreation Center. The first is installing two used boilers to replace the old propane backup boiler. The second is to replace the 12/12 shingled roof with seamless metal and put to rest the pool roof problems for good.

Staffing and Personnel: Nothing to report.
