

TO: Superintendent and Board of Education

FROM: Steve Dunn

DATE: October 21, 2015

SUBJECT: October Board Report

Buildings and Grounds: The new boilers and pumps are up and running. The whole heating system will be adjusted a few times as the weather gets colder. All the furniture is in place now that was ordered this summer. Many roof leaks have been repaired this month, mostly where ice falls off the main roof and where seams are glued together in the rubber membrane.

Transportation and Vehicles: All district vehicles are in good shape. We have a school bus monitor riding in the afternoon. He is riding whichever bus has the need.

Safety and Crisis Management: On October 5th the teacher in-service we had ALICE training for new staff and staff who missed last year. The fire alarm system is working but the control board for the system is not responding when commanded to reset. I am getting quotes on a new system.

Planning and Projecting: Getting ready for winter. Installing a rain garden up by the greenhouse.

Staffing and Personnel: Nothing to report.
