

TO: Bayfield School Board

FROM: Jeff Gordon

Date: April 18, 2018

SUBJECT: April District Administrator Report

### 1. Academic Career Planning

Shellie Swanson and 6-12th-grade teachers coordinated the school's first ACP (Academic Career Planning) event at Legendary Waters for Parents and students to enjoy an evening out to learn about the ACP program. Parents/Guardians were able to meet their child's teacher/mentor to discuss what sorts of activities were going on and to hear about different career paths their child might be interested in obtaining beyond high school. The event was successful with much appreciation for the staff and families who attended the event.

### 2. Preliminary Budget for the 2018-19 school year

The preliminary budget is complete and will be introduced by Randi Johnson and Jeff Gordon. It will be presented at the Finance meeting on Thursday, April 19, 2018, and for the full Board on Monday, April 23rd. Overall, it is similar to last year's budget except for staffing changes in some areas that we believe will benefit the district. The staffing plan's for elementary, middle & high school will be distributed to Board members with notations of adjustments for the budgeting process.

### 3. Education Pow Wow

The school-wide educational powwow was held on Friday, March 16, in the school gymnasium. Similar to last year, Mr. Richard LaFernier, invited community members, families, and students to attend the event. The school provided a feast before the grand opening for the community and guests in attendance. Big thanks to Karen Boutin, Food Service Director, and her staff for preparing a great meal for everyone.

### 4. New Board Member Introduction

Glen Carlson will be sworn-in as a new school board member on Monday, April 23rd. He will be replacing Larry Deragon, who has served on the board respectively over the past three years. Let's all give a big Thank You for Larry and his efforts and welcome Glen on the Board as well for his upcoming service to the school district.
