

IT Systems Administrator Report

March 8, 2012

1. Ongoing projects include E-rate filing, elementary computer lab options, working with Renaissance Learning to bring licensing up to date with purchased products, and state reporting.
2. I will be attending the Brainstorm K-12 technology conference in Wisconsin Dells March 11-13, 2012. I will be attending training sessions on Microsoft Group Policy and management of Apple iOS mobile devices.
3. I have been working with network software packages to develop hardware and software inventories, and to remotely monitor network devices and servers that will provide automatic notifications of possible problems or error conditions.
4. I am evaluating equipment replacements that can be done this year, and scheduled for next year.

Chris Plansky
IT Systems Administrator
