**Facilities Projects and Status**

Accepted bid from Dewey Basley and ordered part for replacement of hot tub heat exchanger. We will be closed October 2-8 for annual maintenance and repairs. During that time, Best Pool Systems will be coming in and doing some necessary updates, maintenance and repairs, including filter media replacement, relocation of salt sensor, replacement of multi-port on spa filter and removal of phosphates and organics from pool. We have already replaced the pool pump impeller per their recommendation after their inspection in June.
