Pupil Count Report – Third Friday in September

One of the most important tasks in creating a school district's budget is in counting children and determining the membership data. This data is used to determine both the current year's revenue limit and to establish next school years state equalization aid. September 20th is the date this year for the September pupil count. Initial reporting looks like we have increased our students by two from the proposed budget in April.

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
