

**Agenda Item Details**

Meeting	Dec 16, 2019 - Dec. 16, 2019 REVISED Regular School Board Meeting Agenda
Category	4. Administrative Reports
Subject	4.4 IT System Administrator Report
Type	Reports

1. Ongoing projects - Ongoing work with new equipment includes a new server, integrating a new backup server, and rolling out a few additional replacement laptops for staff.
2. Internet update - I attended a meeting at CESA 12 with tech leaders from across the area, DPI, our state legislative representative, and some internet providers. Since that meeting, the state has been working with their contractors to provide more redundancy for our internet connection so that outages like we had this summer can be avoided. While we won't know for sure until construction season starts again, we have our fingers crossed that our previous outage problems will be solved.
3. WISEdash Local - Work is continuing, and we have moved from the development server to the production server.
4. State reporting - We are working with Infinite Campus and DPI to update our system in preparation for the next data snapshot. Because of ongoing issues with new updates and requirements, that snapshot has been delayed until January 28th.
5. Wiring projects - Over fall break, the new fitness room was wired for network cameras, which will be installed in the near future. We are also looking into the feasibility and cost of adding electronic door locks to the fitness room door.
6. E-rate - We have been waiting to hear about new E-rate funding. There was a new announcement this week, and it looks like they are simply extending the same funding that has been in place for the past 5 year cycle for one more year. The 5 year budget has been increased by 20% to fund the additional year.

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
