

## Agenda Item Details

Meeting Jul 20, 2020 - Revised - School Board Virtual Meeting Agenda

Category 4. Administrative Reports

Subject 4.1 District Administrator Report

Type

### 1. Fall Reopening Plan

The administration and staff members provided an update to the board regarding the school's opening in September. The committees presented their work and recommendations they have been working on for the past three weeks. Although it's the first draft before the final approval process, everyone had an opportunity to provide feedback and comments on the discussion. The committees will take the comments from the school board members and community at large to offer our students the best educational opportunities during these unchartered times.

### 2. Communication with our Stakeholders.

The communication of the reopening plan to our families and community at large will begin immediately beyond the final approval process. We will reach out to everyone via social media, newspapers, district websites, and mailings to our families whose children attend our school. A survey will follow questions regarding family choices of instruction, internet capabilities, technology, and other areas the parents can provide the school information that will help in their child's education.

### 3. Athletics for the Upcoming School Year.

The WIAA is provided resources and will advise school districts throughout the state on district-related high school athletics. There has been no determination or guidelines set-forth on how school districts should begin the school year. Therefore, each school district will be determined to decide on their own sports programs. The administration and board will need to start the discussion and set expectations as we move toward the fall sports season. We need to consider all recommendations from the Bayfield County Health Department, and both the Wellness and Athletic Committees. As much as we want to provide athletic programming opportunities, we much take into account the safety and wellness of our students.

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
