Agenda Item Details

Meeting   Oct 25, 2021 - Regular School Board Meeting - Revised

Category   4. Administrative Reports

Subject   4.5 IT System Administrator Report

Type   Reports

The initial rush from the beginning of the school year is finally settling down and allowing us to start focusing on finishing some of our larger projects. Ongoing projects include finalizing the installations of our new web filter and firewall, and finishing the setup of the computers in the library. We received our initial shipment of speakers for the paging system and have installed many of them, and we have ordered more to continue the project.

We are looking forward to the completion of construction projects around the building. Norvado will be here on October 25th to finish the network wiring of the new offices, and add additional wiring to a few other locations. I am also planning to have our electronic door lock vendor visit soon to complete their work on the new offices, but I will need to reconfigure the system before the arrive to accommodate changes requested by administration.

With the third Friday and October student counts behind us, we are also focusing on our data reporting to the state, and ensuring data quality by making any updates or corrections necessary to clear up any errors or warnings from the data upload process. Along with this work, we will also be looking at our WISEdash Local data and making sure that everything is current so that our staff can continue learning how to best make use of the data to help our students learn.

Finally, we have been working on ways to improve internet accessibility for member of our community. There are state and federal programs working to improve access. Cost, availability of service, slow service, and insufficient infrastructure are the issues we are dealing with.

Respectfully submitted by Chris Plansky, IT System Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
