LaPointe School, School District of Bayfield

•

A fire drill was conducted and system did not alarm. The main panel had a catastrophic failure. The panel is obsolete (1974). No parts available. Northland Fire quoted a replacement system in 2017 for 23,000.00. There are smoke detectors in the school building that are tested monthly.

Thank you for your support and guidance.

Respectfully,
Joel Shilman
