Agenda Item Details

Meeting	Aug 15, 2022 - Regular School Board Meeting
Category	3. Administrative Reports
Subject	3.8 IT Systems Administrator Report
Type	Information, Reports

We are trying to wrap up all of our summer projects. The last of the new surveillance cameras are being installed, and the new door access system is working great. Installing the new IP speakers will be an ongoing process, but we hope to have most of them installed before school starts.

We are still waiting on some equipment delayed by supply chain issues, so the interactive whiteboard and display installations will continue during the school year, on days when students are not in the building, to minimize disruptions. We hope to get some recent arrivals installed before students return.

We are still on track to deploy multi-factor authentication for staff Google and Infinite Campus accounts. Training time is limited due to a very busy inservice schedule, but we will make sure staff have access to training materials via email and web-based tutorials. The next steps as we move forward will be to continue training with staff, and to increase our network monitoring and notification capabilities.

Respectfully submitted,
Chris Plansky

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
