Agenda Item Details

Meeting   Dec 19, 2022 - Regular School Board Meeting

Category   3. Administrative Reports

Subject   3.8 IT Systems Administrator Report

Type   Information, Reports

The December 6th snapshot for state reporting to DPI is done. All errors in Infinite Campus were resolved prior to the data snapshot, so my assumption is that everything went smoothly. DPI will contact us if anything needs our attention.

I had a follow up meeting with Mike Peterson and a vendor regarding adding surveillance cameras to the playground. Joel Shilman is doing some research on possible locations that already have power available. We are waiting to find out about power availability before we proceed, so we know what options are available. If power is available, we may be able to avoid burying new electric and network cabling, which would have a significant cost.

We recently attended a training from our insurance company regarding security. It was very informative, and our take-away was that we are on the right path of improving our network security, door access, and video surveillance.

Finally, our assessments of equipment scheduled for replacement continue. We will be continuing this throughout the year, and we will schedule replacements and upgrades as needed.

Respectfully submitted,
Chris Plansky
IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
