Bayfield and LaPointe Elementary Monthly School Board Report  
 Submitted by: Mike Peterson  
 Date: February 27, 2023

**Student Success:**

**1) Fountas and Pinnell (F&P)**

Grade 1-5 teachers have completed the running records with their students in January. Most students are making good progress towards grade level benchmarks as you will see in the End of First Semester report. Our efforts to tighten our universal reading instruction using the Daily 5/C.A.F.E. structure is working. We are also seeing growth due to targeted tier II reading interventions led by our classroom teachers and tier III interventions from our two reading interventionists. We are still addressing learning gaps in reading from the pandemic but we are making progress!

*\*Due to small class sizes and to protect student privacy I have shared LaPointe’s F&P Data in the executive section.*

## 2) NWEA Measures of Academic Progress (MAP)

Grade K-5 teachers have finished administering our winter universal screener, MAP, for math and reading at the end of January. Our students took the MAP for the first time in the fall so we can now start to use the growth data. ES students and staff are still getting acquainted with the test format and the data that we are able to pull from this screener will get more robust as more tests are completed. It takes a few administrations of the test to get a real accurate picture of our learners. I have included three different report types for the board to look at and discuss:

- NWEA MAP Growth (K-5 Fall to Winter)
- NWEA MAP Achievement (K-5 Fall to Winter)
- NWEA MAP (Winter Drill Down by Grade and Instructional Area).

Our ultimate goal is to have each student meet or exceed their MAP Growth Goal and to achieve at the 61% or above which will roughly equate to Proficient or Advanced on the WI Forward Exam.

I will be able to discuss any or all of the MAP reports included in this board report if you would like explanations. Also, I would like some feedback from the board on which reports you prefer I share in future ES board reports.

*\*Due to small class sizes and to protect student privacy I have shared LaPointe's NWEA MAP Data in the executive section.*
