Agenda Item Details

Meeting	Sep 18, 2023 - School Board Meeting
Category	3. Administrative Reports
Subject	3.7 IT Systems Administrator Report
Type	Reports

The school year has begun, and we have been working on helping everyone get up and running for the new year. We set up all the new staff and students with all of their various accounts for the District's services. The first two weeks of school are a busy time for us with new students, staff changes and room moves, and new services coming online.

We still have 2 projects we are still working on from summer. The installation of the surveillance camera system for the playground is scheduled for October 9th, when vendors from Heartland Business Systems, Jolma Electric, and Hunt Electric will be onsite to install the cameras and terminate the network wiring. The outdoor classroom wireless system project is ongoing. We have the necessary equipment, and now we need to integrate it with our existing network.

As we move into fall, there are two important student counts that are reported to the Department of Public Instruction (DPI), and we will be working on our data sync between Infinite Campus and the state data collection system. We also will be working on replacing staff computers, based on a standard replacement cycle of 4-5 years for laptops, and 5-6 years for desktop computers.

Respectfully submitted,
Chris Plansky
IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
