Student Success:

- ES teaching staff have been using our morning collaboration time to discuss student progress in reading and math with our interventionists, Special Education case managers and myself. The focus is to ensure that all students are getting the proper interventions and/or enrichment.
- ES teaching staff will be administering our Winter '24 universal screener (NWEA MAP) for reading and math. We also will be doing a running record (F&P) for all students to assess growth in reading. Details and analysis of our winter screening will be shared with the board in February.
- ES teaching staff continue to meet every other week to discuss and improve our literacy plan. We are making great progress in aligning our instructional practices under the guidance of our reading specialists. We also continue to get advice, assistance and training from our CESA 12 literacy consultant.

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
