

**Agenda Item Details**

Meeting	Sep 16, 2024 - Regular School Board Meeting
Category	3. Administrative Reports
Subject	3.6 IT Systems Administrator Report
Type	Reports

School is back in session, and we are settling into the new year. Over the summer we completed several projects:

- installed new network wiring and security cameras at La Pointe School
- installed 3 new camera intercoms at doors 6, 8, and 11
- began installing new security software on District computers, this is still ongoing
- completed multiple room moves, including installation on new interactive displays
- updated staff computers, and replaced as scheduled
- updated printing system for student Chromebooks

Some projects are ongoing, including upgrading the wireless access points at both Bayfield and La Pointe Schools, and continuing the rollout of our new security software.

Due to the number and complexity of summer projects, we did not make as much project on research and development as we would have liked. Research will continue during the school year, when things slow down a little after everyone is settled into the school year. We will have some decisions to make soon regarding software subscriptions, and we want to explore all of our options before we make any decisions.

Respectfully submitted,

Chris Plansky

IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
