Agenda Item Details

Meeting	Nov 18, 2024 - Regular School Board Meeting - Revised
Category	4. Administrative Reports
Subject	4.6 IT Systems Administrator Report
Type	Reports

We are now preparing for the DPI data snapshot on December 10, 2024. Our data from Infinite Campus synchronizes with the state's WISEdata system, and we are investigating and updating any reported data errors or sync issues to ensure everything is correct for the snapshot. The snapshot includes year-end data from the 2023-2024 school year, as well as data from the third Friday of September and October 1st data collections.

Other than that, we are spending our time updating security, welcoming new staff and students, and making plans for the future. We hope to know more soon about changes in licensing and costs for one of the products we currently rely on, and we will incorporate that into our planning. We are also looking at various vendors that would help us move some of our paperwork to online forms. When we have more information, we will work with admin staff to determine if this is a cost effective way to move forward.

Respectfully submitted,

Chris Plansky

IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
