

**Agenda Item Details**

Meeting	Oct 27, 2025 - Regular School Board Meeting - Revised
Category	3. Administrative Reports
Subject	3.7 IT Systems Administrator Report
Type	Reports

School is back in session and things are busy.

Summer projects are wrapping up. These projects are ongoing:

- We are still in the process of upgrading and replacing computers running Windows 10, which will be end-of-life in October.
- Our new Windows domain and print server is up and running. We are still working through some issues, but the old servers are now offline.
- Our key servers running Linux have been replaced, and the others will be replaced as time permits. Our open source solution to host virtual servers is up and running.
- The new firewall and wireless access points for LaPointe School will be configured soon and we will install them as we are able.
- We have our new point of sale (POS) computers for food service at both Bayfield and LaPointe Schools on site, and we will replace them soon.

We are still dealing with some of our beginning of the year tasks, and things are falling into place. We've had some significant changes over the summer and early fall, and we are working through them as we are able.

Respectfully submitted,

Chris Plansky

IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
