Category	3. Administrative Reports
Subject	3.8 Athletic Director Report
Type	Reports

Athletic Director's Report **Submitted by: Daryl DePerry**

Board of Education Meeting – November 17, 2025

It has been an exciting and productive start to the winter athletic season.

Our **elementary basketball partnership with the Red Cliff Boys and Girls Club** is underway for this winter. This collaboration provides an excellent opportunity for our younger students to build foundational skills and experience team play in a supportive environment. A letter will go out to elementary families in mid-November with full details on registration, schedules, and participation expectations.

Our **high school basketball programs** officially began the week of **November 10**, and our **middle school boys' basketball team** is already off to a strong start. We are looking forward to a competitive and spirited winter season across all levels.

I've just returned from a **multi-day Athletic Directors Conference in the Wisconsin Dells hosted by the WIAA**, which provided valuable professional learning on topics such as eligibility compliance, sportsmanship, event management, and student-athlete well-being.

The **winter sports schedules** are currently being finalized and formatted into a **tri-fold design**. These will be distributed to families and community members before the end of November to ensure everyone has easy access to game times and locations.

As our programs continue to grow and participation expands, it is clear that the coordination, communication, and compliance duties required to successfully operate a **K-12 athletic program** warrant at least a **part-time position** to sustain quality and consistency. I am looking forward to joining you at the December Committee of the Whole meeting to share more information on this topic.

I am deeply appreciative of the opportunity to serve in this role and to work alongside our dedicated coaches, student-athletes, and families who represent our district with pride.

Go Trollers!

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
