Agenda Item Details

Meeting	Nov 17, 2025 - Regular School Board Meeting
Category	3. Administrative Reports
Subject	3.7 IT Systems Administrator Report
Type	Reports

These projects are ongoing:

- The last few computers running Windows 10 are being replaced this month. Support has ended for Windows 10, but there have not been any significant security issues discovered since support ended.
- Our new Windows domain and print server is up and running. We are still working through a few lingering issues with the new print system and the new print protocols.
- There are a couple Linux servers that will be replaced as time permits. They will be either virtual machines on our open source virtual server solution, or stand alone devices using retired windows mini-computers. These are primarily systems monitoring devices.
- The new firewall and wireless access points for LaPointe School will be configured soon and we will install them as we are able.
- We have our new point of sale (POS) computers for food service at both Bayfield and LaPointe Schools on site, and we will replace them soon.

Respectfully submitted,

Chris Plansky

IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
