

**Agenda Item Details**

Meeting	Dec 15, 2025 - Regular School Board Meeting
Category	3. Administrative Reports
Subject	3.7 IT Systems Administrator Report
Type	Reports

We are in the full swing of the school year. December 9th was a data snapshot with DPI, and we have been working on correcting errors and omissions in our data, and making sure our data is syncing correctly with the DPI's WISEdata system. We have also been working with Joel Shilman on the LaPointe School renovation project. We will be rewiring the building, installing new wireless access points, adding additional security cameras, and adding electronic door access. Initial plans are in place, and we will update them as needed, and we will work with our vendor to move forward on the project as construction progresses.

We are also working on the last few summer projects, and we will be refreshing the batteries and updating our uninterruptible power supplies (UPS) to make sure we have adequate power backup in case of power interruptions at both of our locations. We are also continuing to document our network and IT environment, and update our systems monitoring.

Respectfully submitted,

Chris Plansky

IT Systems Administrator

This meeting is a meeting of the Board of Education in public for the purpose of conducting the School District's business and is not to be considered a public community meeting. There is a time for public participation during the meeting as indicated in the agenda.
