HIP HOP AT THE TENT

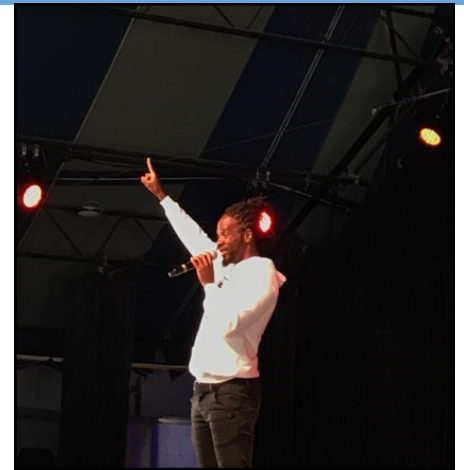

-Maria Pero

Bayfield Middle and High School students loaded into the yellow school buses on September 14th to get to Big Top Chautauqua to see a hip hop history show. The viewing performance started with flutist musician Frank "Anakwad" Montano who ended his performance with his own creation, an Ojibwe rap song. Montano (82), hopes that we all live to be his age be-

cause "...living this long is a great privilege." Frank says that his music is for everyone and he wishes that more young people took an interest in traditional flute playing.

After Montano finished, Bayfield students were treated to a HipHop concert from Shuan Boothe. He sang three songs that were based on the lives of Martin Luther King Jr, Malala Yousafzai, and Bob Marley from his album entitled *Unauthorized Biographies*.

After the concert, Boothe stated that, "I started doing my videos on YouTube for free." He stated that he did a video on Muhammad Ali, and Ali's daughter actually sent him a private message to thank him for capturing

her father's essence so well. During his interview he stated how he hoped that his music would bring light to others. He continued, "...Muhammad Ali's daughter helped my work blow up."
